Agile Methodology

- Meetings with Product Owners
 - Schedule all reviews NOW!
 - Don't bite off more than you can chew
- Daily Stand-ups
 - 15 minutes
 - Each teammate answers 3 questions:
 - What did you accomplish yesterday?
 - What are you planning to accomplish today?
 - Is there anything blocking you from getting it done?

Trello Boards

- Feature workflow
 - Product Backlog → Sprint Backlog only in Sprint Planning
 - Ready to Review → Done only after Sprint Review
 - You should only be on one In-Progress card at a time (two tops)
- Working a card
 - Assign team member(s)
 - Add checklist and items. @Mention team member if appropriate
 - Move to indicate status: Sprint Backlog → In Progress → Ready for Review
- Document!
 - Use Notes feature to keep team informed
 - Use tags if it helps
- If you think you need to add a card:
 - Ask scrum-master or at next stand-up

Communications

- Team Slack channels
 - Communicate with Team and Product Owner
- Zoom
 - All stand-ups will be held here
 - Join the .NET Classroom

Schedule

Mon 29	Tue 30	Wed 31	Thu 1	Fri 2
				Kickoff
Mon 5	Tue 6	Wed 7	Thu 8	Fri 9
Sprint 1 Planning		Sprint 1 Demo		
		Sprint 2 Planning		
Mon 12	Tue 13	Wed 14	Thu 15	Fri 16
Sprint 2 Demo		Sprint 3 Demo	Cleanup, Fit & Finish	Final Demo
Sprint 3 Planning				Graduation!

Be a Good Teammate

- Working hours are 9am – 5pm
 - Be available as much as you can during that time
 - Communicate when you are not available
- Keep Trello up-to-date.
- Merge often. Commit as soon as you can. Don't break the build!
- Do whatever it takes to get the job done. Leave ego at the door.
- Don't bite off more than you can chew.
 - Especially when meeting with product owner
- Don't go dark.

GIT

- Branching WILL NOT eliminate the need for conflict resolution
- Branches can be used to minimize breaks across features
 - When you want to share code that's not ready for the whole team to use
 - Only recommended if you have a team member that's comfortable
- If you use branches
 - Create a branch per feature (not per person)
 - Multiple people can and should work on the same branch
 - Merge early, merge often
 - Merge from main into the branch (often)
 - Resolve conflicts
 - Run tests
 - Merge back to main (when stable)

Repos

- Repos will be made available after this meeting
- What's in the Repository
 - Two starter projects (API and Vue)
 - README's!!!

Next Steps

- Contact your Product Owner today!
 - They should be on Slack
 - Schedule your first meeting to Plan your first sprint
 - Schedule your sprint demos
- Setup time for your regular Scrum
 - 8:30, 9:00, 9:30, 10:00
- Slack Ben directly with your project name and time choice ^^
